- The Fund returned -1.27% in June 2015. As at 30 June 2015 the Fund was worth \$29.54 billion.

	As at 30 June 2015
Fund size	\$29.54 billion
Value of NZ investments	\$4.4 billion or 14.8% of investments*
Return since inception (30 September 2003)	10.11% p.a.
Last 5 years	16.85% p.a.
Last 3 years	19.86% p.a.
Last 12 months	14.64%
June 2015	-1.27%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

Performance summary

- The Fund measures its performance in two ways:
 - relative to the NZ 90 day Treasury Bill return; and
 - relative to a passive [Reference Portfolio](#) benchmark.

Given the investment risk of the Fund, over the long-term (rolling 20 year periods) we expect to exceed the New Zealand Treasury Bill return by at least 2.5% p.a.
